

***NAC Continues its Free Autism Screening Program this Summer***

In response to the ongoing need for diagnostic services, The National Autism Center is announcing a free autism screening program for children between the ages of 18 months and 5 years suspected of having an autism spectrum disorder. The screenings will be conducted by a child psychologist specializing in autism diagnosis. Each appointment takes approximately one hour. See below for details!

**When:** The screenings will take place from 9:00 am – 4:00 pm on Friday, June 5; Thursday, July 9; Friday, August 7 and the first Friday of every month thereafter.

**Where:** The screenings are held at the National Autism Center's Autism Clinic located in Randolph, MA.

**Next Step:** Please contact Jenna at 877-313-3833, Ext. 375 to schedule an appointment today! Appointments are scheduled on a first-come, first-served basis.
